SOCIAL TRADING

HOW TO SUBSCRIBE TO A SIGNAL

Social Trading is a service where individuals can automatically copy the trades of experienced and skilled traders, often referred to as Signal providers.

To subscribe to a Signal, you will need:

- ✓ MT4 or MT5 trading account.
- ✓ Sufficient funds on your trading account.
- ✓ Follow these simple steps to subscribe to Signals from successful traders and replicate the trades to your trading account.

FOLLOW THESE SIMPLE STEPS AND SUBSCRIBE TO A SIGNAL

Explore a diverse range of solutions to thoroughly assess each one or make comparisons to find the most suitable and interesting option for you. Use filters to categorise Signals according to criteria like return, risk rating, followers, weekly drawdown and more, making it easier to identify choices that match your specific preferences.

Open the Signal you are interested in by clicking on its name.

→ When reviewing Signals, always check key factors such as minimum deposit, return percentage and associated fees. Analyse all the details and trade reports to help you make a more informed decision.

To follow a chosen Signal, click "Follow" in the right-upper corner of the Signal provider's profile.

➤ HOW TO SUBSCRIBE TO A SIGNAL

1

Choose the trading account you'll use to subscribe to the Signal and enter the trading account password.

2

When choosing the follower type for Social Trading, you have three options: **Percentage**, **Fixed Lots**, or **Proportional by Equity**. Choose the option that best suits your trading preferences and risk management strategy.

Percentage: The system will copy a specified percentage of the Signal's trade volume to your account. For example, if you choose 50% and the Signal initiates a trade of 1 lot, your account will replicate the trade with 0.5 lots.

→ **Min Size (Lots):** This represents the smallest trade amount that will be opened, regardless of the Signal's trade size. The smallest allowed value is 0.01%.

→ **Max Size (Lots):** This parameter determines the maximum trade amount that will be opened. Keep in mind that setting this to 0 is equivalent to having no limitation.

Fixed Lots: You can set a fixed amount (lots) that the system will copy to your account for each trade initiated by the Signal. For instance, if you choose 1 Lot, your account will mirror the Signal's trades with a volume of 1 Lot each.

Proportional by Equity: Choosing the 'Proportional by Equity' approach ensures that the trades are executed based on the Signal provider's equity in proportion to yours, considering the set risk factor.

→ A risk factor of 1 indicates you're taking the same level of risk as the Signal provider.

→ If the Signal provider's equity differs from yours, the system will proportionally adjust the trade volume.

→ For instance, if the Signal opens a trade of 1 Lot and your equity is half of the Signal provider's equity, your account will replicate the trade with 0.5 Lots.

When following a signal using proportional by equity, a signal subscriber will follow the signal trade based on a the correlation between the equity on follower accounts and the risk factor setting. As an example: If signal provider has a current equity of USD 10,000 on account and follower has USD 1000 and trade 1 lot, then follower will copy 1 lots * 1000 / 10000 = 0.1 lots considering that risk factor here is 1. If risk factor was set to 0.1 this means that the follower would like to have 10 times less risk than the master so that the 0.1 lots that he is supposed to follow with is multiplied by 0.1 making the end result to open equal to 0.01 lots.

Disclaimer: Enabling the Reverse Copy setting results in executing trades opposite to the Signal. For example, if the Signal places a BUY order, a SELL order will be generated on the follower account.

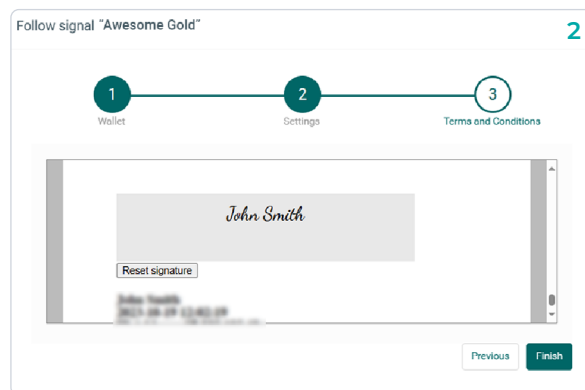

3

After selecting the appropriate follower type, **click "Next" to proceed** to the Terms and Conditions. Carefully read the Terms and Conditions. If you agree to the terms, scroll to the bottom of the page and electronically sign the form.

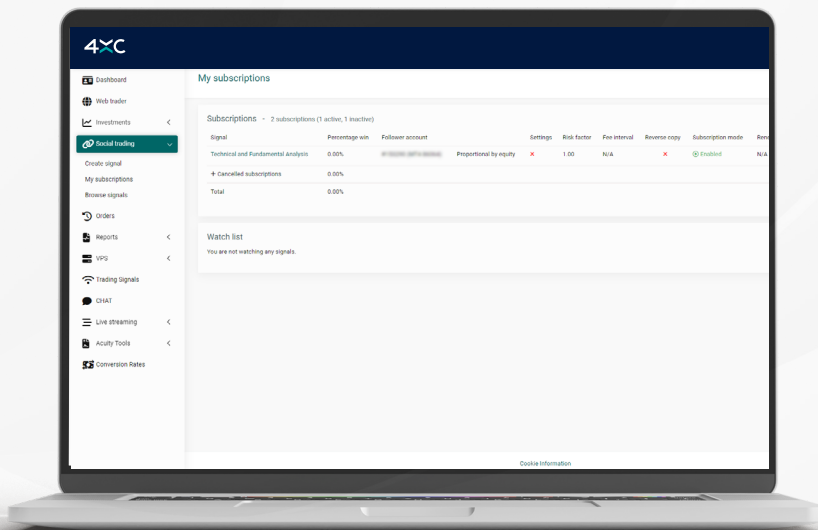

HOW TO SUBSCRIBE TO A SIGNAL

4

For the final step, click **“Finish”** to subscribe.

Easily keep track of signals and handle all your subscriptions by accessing the **"My Subscriptions"** tab in your client area.
