How does PAMM work ? - With our PAMM tool, you can subscribe to verified trading strategies from independent traders and let them handle all the heavy lifting.

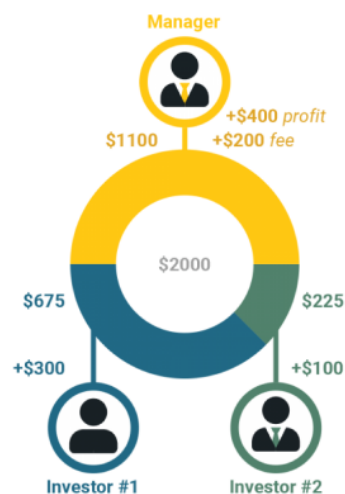

Simply use the left column in your Traders Room and navigate to investments, then select browse strategies to see and choose from all the available strategies.

The Manager sets up a PAMM with initial capital and a trading strategy...

...which other investors can choose to follow and invest in.

As the manager's trades produce profits...

...the investors share in those profits (minus the manager's fee, which here is 20%)

By using this network you can see the trading strategies that managers are publishing. This enables investors to review, compare and invest in different published strategy
